SUMMARY

Aspiring Java Backend Developer with practical experience in Spring Boot, Microservices, and secure API development using Spring Security (JWT, OAuth2). Currently interning at Capgemini Consulting India Pvt Ltd, with a strong foundation in designing scalable, high-performance applications and problem-solving.

EDUCATION

Bachelor of Technology in Computer Science, GLA University, Mathura

05/2026

EXPERIENCE

Capgemini Consulting India Pvt. Ltd., Software Engineer Intern

12/2025 – Present

- Developed backend services using **Spring Boot**, improving application performance and scalability.
- Built REST APIs enabling efficient data communication between frontend and backend systems.
- Worked on **microservices architecture**, improving scalability and modularity.
- Designed and integrated APIs with frontend applications using **React.js**.
- Collaborated in an **Agile development environment** with cross-functional teams.

Zidio Development, Frontend Developer Intern

02/2024 – 03/2024

- Developed a responsive website using HTML, CSS, JavaScript and React.js.
- Managed version control using Git and GitHub, ensuring efficient collaboration and reducing code conflicts.

PROJECTS

Quantity Measurement System  , Java | Spring Boot | Spring Security | REST APIs | JWT | OAuth2 | MySQL | Maven

- Developed a Quantity Measurement & Calculation System supporting operations like addition, subtraction, multiplication, division, conversion, and comparison across different units.
- Implemented **JWT-based authentication** and **Google OAuth2 login** for secure user access.
- Designed and built **RESTful APIs** for handling operations and user-specific data.
- Applied **Spring Security** for endpoint protection and password encryption.
- Tested APIs using **Postman** and ensured smooth frontend-backend integration.

SKILLS

Technical

- Programming Languages:** Java
- Backend Technologies:** Spring Boot, Microservices, REST APIs
- Security:** Spring Security, JWT, OAuth2
- Frontend Technologies:** React.js, HTML, CSS, JavaScript
- Database:** MySQL, MongoDB
- Tools & Platforms:** Git, GitHub, Postman
- Build Tools:** Maven
- Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms

Professional

- Effective Communication Skills
- Problem-Solving
- Teamwork

CERTIFICATES

- Java Master Course, Coding Blocks (6 Months) 
- Top 5 Finalist, Internal Smart India Hackathon 2024, GLA University, Mathura 

KEY ACHIEVEMENTS

- Ranked in Top 5 out of 210 teams in Internal Smart India Hackathon at GLA University 2024, developing a real-world AI-powered solution.
- Recognized among the Top Submissions in the Gen AI Exchange Hackathon organized by Google for building a Gemini-powered AI Learning Companion.
